Nu Html Checker

This tool is an ongoing experiment in better HTML checking, and its behavior remains subject to change

Showing results for uploaded file index.html

---Checker Input---

Show ☐ source ☐ outline ☐ image report   Options...

Check by [file upload ▾] Seleccionar archivo Ninguno archivo selec.

Uploaded files with .xhtml or .xht extensions are parsed using the XML parser.

[Check]

Use the Message Filtering button below to hide/show particular messages, and to see total counts of errors and warnings.

[Message Filtering]

1. **Info** **Trailing slash on void elements** has no effect **and** interacts badly with unquoted attribute values.
   From line 4, column 9; to line 4, column 32
   >↵   `<meta charset="utf-8" />`↵

2. **Info** **Trailing slash on void elements** has no effect **and** interacts badly with unquoted attribute values.
   From line 5, column 9; to line 5, column 78
   >↵   `<meta name="viewport" content="width=device-with, initial-scale=1.0"/>`↵

3. **Info** **Trailing slash on void elements** has no effect **and** interacts badly with unquoted attribute values.
   From line 6, column 9; to line 6, column 79
   >↵   `<meta name="description" content="cursos de manualidades en ceramica"/>`↵

Document checking completed. No errors or warnings to show.

Used the HTML parser.
Total execution time 8 milliseconds.

Nu Html Checker

From line 104, column 21; to line 104, column 79

```
<input type="checkbox" name="pago" id="aceptar" required />↵
```

15. **Info** **Trailing slash on void elements** has no effect **and** interacts badly with unquoted attribute values.

From line 107, column 21; to line 107, column 62

```
<input type="submit" value="INSCRÍBEME" />↵
```

Document checking completed. No errors or warnings to show.

Sobre el html solo destacar, y solo porque lo comentamos en clase, que en los nombres propios no hay que especificar el idioma como atributo "lang" ya que se escribe igual en todos los idiomas. He llegado a esta conclusión después de indagar sobre el tema, siendo cierto que hay gente a favor y en contra de su uso con este fin, pero siendo mayoría quienes opinan que en los nombres propios no hace falta el uso de ese atributo.

En cuanto al css, solo comentar que he tratado de hacer uso de toda clase de selectores evitando al máximo el uso de clases, aun a sabiendas de que usándolas sería más cómodo y fácil los selectores, pero quera ponerlos en práctica.
